FRONTEND SOFTWARE ENGINEER

I am a Software Engineer with a background in process design. I possess strong skills in problem solving, problem analytics, communication and collaboration that leads to quality products & results. I am currently seeking a Software Engineering internship.

TECHNICAL SKILLS

Languages: Javascript, CSS, HTML5

Frameworks/Libraries: React, Material UI, Tailwind CSS

Databases: PostgreSQL, Firebase

Version Control: Git, GitHub

TECHNICAL PROJECTS

Thrive-With-Art Blog

Github: github.com/Collinschudy/My-web-blog

Livesite: thrivewithart.vercel.app

This is a website blog built with a react and a wide range of dependencies such as firebase and emailjs

- Built an admin-only authentication system using firebase.
- Set up firestore from firebase for storing blog contents.
- Set up emailjs for visitor's review and contact.
- Added a comment section from commentbox.io
- Deployed temporarily on vercel.

Chud-Chat App

Github: github.com/Collinschudy/chud-chat

Livesite: chud-chat.vercel.app

This is a chat app built with reactjs and firebase where users can communicate by sharing the same database. A snapshot of the data they put into the database is taken and updated on the UI in real time.

- Built a login and sign up system with firebase.
- Built in a search component where users can search for other authenticated users and start a chat.
- Used TailwindCSS for the styling of the components.

Udacity Trivia App

Github: github.com/Collinschudy/Udacity-Trivia

This is an exciting trivia game where users answer different questions from different categories.

- Created API's endpoints with crud (create, read, update and delete) methods
- Tested every endpoint using unit testing
- Used postman to test out the crud methods
- Wrote a ReadMe documentation of the application

PROFESSIONAL EXPERIENCE

- Applied computer science data structures and algorithms to solve computational problems ensuring the data flow within a finite amount of space and time
- Worked as a maintenance officer in a plastic production firm.
- Gained hands-on experience with JavaScript, CSS, HTML, PostgreSQL and tech principles whilst working on individual projects, code reviews, and pair programming session

EDUCATION

Nnamdi Azikiwe University, Awka

Bachelor of Engineering, Chemical Engineering, Honors

Anambra State, Nigeria

Graduation Year: May, 2021

VisionVoice Inc, Access2Tech Bootcamp & Annual Conference

14th July - 20th August, 2022

ALX-T Full Stack Developer Nanodegree Program

19th July - 22nd October, 2022
